13. Children care
14. Digital technologies in medicine
15. Physical culture and sports
16. Main non-communicable diseases
17. Clinical anatomy
18. Pathological anatomy
19. Pathological physiology
20. Pharmacology
21. Propaedeutic of children's diseases
22. Pediatrics. Neonatology
23. Internal diseases. Propaedeutic
24. Internal diseases. Clinical allergology, immunology. Occupational diseases
25. General surgery
26. Hematology
27. Dermatovenerology and pediatric dermatovenerology

28. Clinical laboratory diagnostics
29. Medical genetics
30. Medical psychology
31. Medical radiology
32. Prevention, early detection and care of diseases of the cardiovascular system
33. Clinical protocols for major non-communicable diseases
34. Public health
35. Pulmonology
36. Surgical diseases in family medicine
37. Obstetrics and gynecology, pediatric gynecology
38. Otorhinolaryngology, children's otorhinolaryngology, children's stomatology
39. Ophthalmology, pediatric ophthalmology
40. Folk medicine
41. Medical radiology
42. Pathological anatomy
43. Pathological physiology
44. Pharmacology
45. Internal medicine propaedeutics
46. Urology
47. Physiiatrics
48. Endocrinology
49. Theory and methodology of physical culture
50. Sports games and teaching methods
51. Improving sports skills
52. Athletics and its teaching methodology
53. Management of physical education and sports
54. Theory and practice of teaching swimming
55. Theory and practice of chess teaching
56. Organization of sports club
57. Basics of ecological culture and sustainable development

58. Hygiene of physical education and natural-physiological bases of sports
59. Types of wrestling and methods of teaching it
60. Football and its teaching methodology
61. Sports management
62. Adaptive physical education
63. Organization of sports training
64. Sports psychology
65. Gymnastics and its teaching methodology
66. Inclusive education.
67. Arranging and refereeing sports competitions
68. History of physical culture
69. Tourism and its teaching methodology
70. Methodology of teaching sports and action games
71. Badminton sport training methodology
72. Physical culture and sports in primary grades
